Profile

I'm currently a freelance developer and part time programming teacher, looking for a software development role to build on the skills I've learnt and continue to expand my career. I am extremely entrepreneurial, a strong team player and I enjoy finding creative solutions to complex problems.

Education

Le Wagon, *Full-Stack Web Development*   Jan 2020 – Mar 2020 | London, UK
Recent graduate of Le Wagon, the #1 Web Development bootcamp in the world.
Learnt Ruby-on-Rails to build complex web-apps and API integrations.

University of Exeter, *Business Management*   Sep 2016 – Jul 2019 | Exeter, UK
Upper Division Second Class Honours
Relevant Modules: Strategic Management, Information Systems, Digital Marketing, Finance, Accounting.
Awards: University Colours Award – 2017 and 2018, Graduated Sports Scholar 2019.

University of Wisconsin-Madison, *BA Computer Engineering*   Aug 2015 – Jun 2016 | Madison, USA
Relevant Modules: Java, Chemistry, Economics, Calculus. (Changed Degree)

Professional Experience

Le Wagon, *Teaching Assistant*   Apr 2020 – Ongoing | London, UK
I am responsible for helping students understand the core fullstack concepts and guiding them towards eventually building their own fully working websites. I provide assistance and feedback to allow students to reach new solutions to complex coding challenges using Ruby, Ruby on Rails, SQL, JavaScript, HTML5 and CSS/Sass.

Homeppl, *Operations Analyst at a Tech Startup*   Jun 2019 – Jan 2020 | London, UK
Contributed to enhancing sales strategies and identifying efficiencies in operations processes at a fast growing Fin-tech startup. Worked side-by-side the CEO to improve the company's product and processes. Personally developed a process to automate daily data entry, which saved the operations team 20 hours of work weekly. Built strong relationships with existing accounts by keeping them informed allowing for transparency and visibility. Was proactive in detecting and reporting various cases of fraudulent data subjects, which enhanced our client retention and existing relationships.

College Pro Painters, *Business Development Executive*   Jan 2016 – May 2016 | Madison, USA
I was responsible for leading and training a marketing and sales team, selecting target areas where we would pitch our services to customers. Created marketing and sales strategies which significantly increased customer acquisition. Held the sales record for the company within a month of starting this role.

Projects

Fixenova, *Co-Founder and Software Engineer*   Mar 2020 – Ongoing
Fixenova is a tech startup that provides professional services to homeowners who are in need of repairs or renovations. I am the lead designer and developer for the company, utilising and expanding the skills learnt at Le Wagon to push the platform to production.

Emitless, *Le Wagon Bootcamp Final Project*   Feb 2020 – Mar 2020
I envisioned and pitched the final project idea and formed a team of developers to design and program a web application. This platform helps consumers make informed decisions on their online purchases as they are advised which products to stay away from to lower their carbon emissions.

Skills

Trilingual (Spanish, English and Catalan) • Ruby-on-Rails • React.js • Redux • JavaScript • API Integrations

HTML5 • CSS/Sass • Bootstrap • SQL • PostgreSQL • Ajax • TDD • OOP • Scraping • MVC

Teamwork • Communication • Problem Solving • Figma • Photoshop • Excel • Database Architecture
